About Cogveel

Cogveel Technologies is a leading provider of technology solutions, committed to delivering innovative and comprehensive IT services, AI/ML solutions and Cloud expertise to our valuable clients. We have built a strong reputation for excellence, driven by over 20 years of collective experience. Our team is passionate about leveraging technology to empower organizations and drive measurable business outcomes. We strongly believe companies need to establish strong data science practices that set the stage for automation and AI transformations.
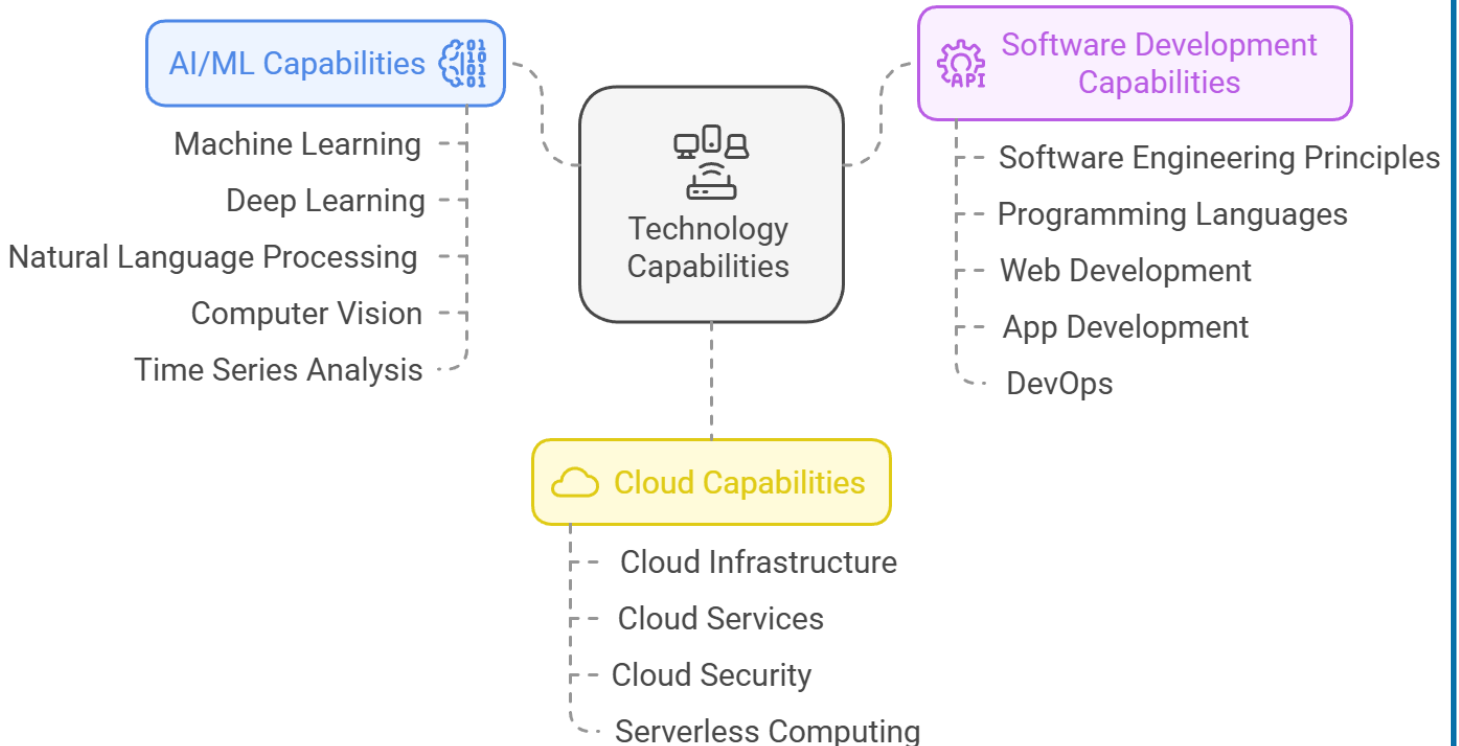

Vision

Cogveel Technologies envisions a platform that fosters collaboration among creative, enthusiastic, and motivated individuals. This dynamic environment will cultivate a culture of continuous learning and shared prosperity. By nurturing a vibrant knowledge industry, Cogveel aims to unlock unprecedented opportunities for personal and professional growth, empowering individuals to thrive together..
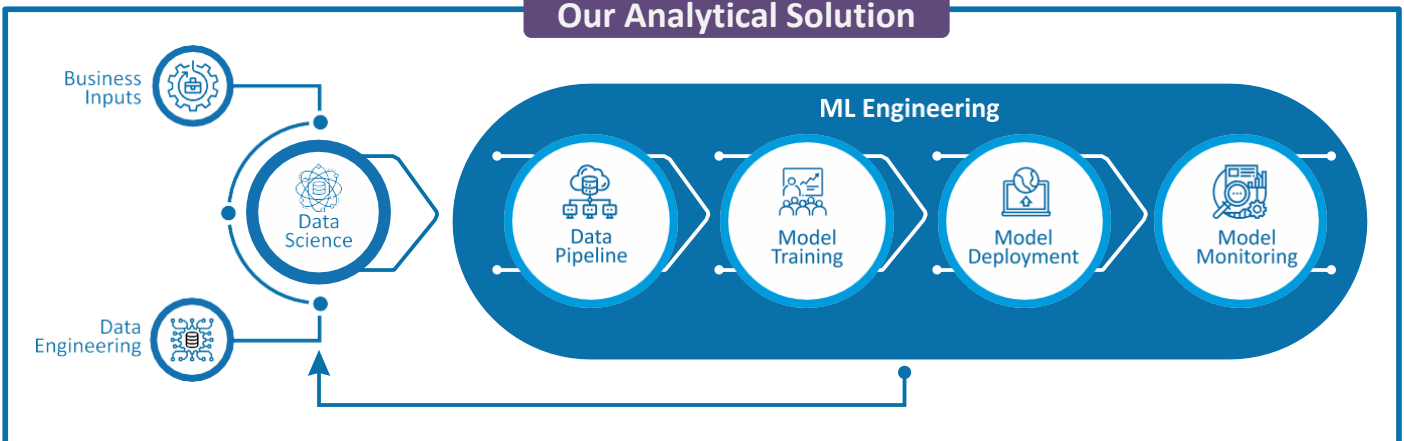

Mission

Cogveel Technologies mission is to empower organizations through innovative and reliable IT solutions, focusing on delivering measurable business outcomes. We achieve this through continuous learning, technological innovation, and a commitment to excellence. We believe in building strong partnerships with our clients and providing them with the support and expertise they need to succeed.

Core Competencies

AI/ML Capabilities
- Machine Learning
- Deep Learning
- Natural Language Processing
- Computer Vision
- Time Series Analysis

Technology Capabilities

Software Development Capabilities
- Software Engineering Principles
- Programming Languages
- Web Development
- App Development
- DevOps

Cloud Capabilities
- Cloud Infrastructure
- Cloud Services
- Cloud Security
- Serverless Computing

ML Engineering

Business Inputs

Data Science

Model Training

Model Deployment

Model Monitoring

bTiton Apps

bTITON app provides the intelligence needed to derive meaningful results for surveillance use cases in the industry. Also, the complicated assessment of human activities and their impacts during changeover is now made easy by our bTiton Changeover module. We achieve this with the state of the art Video Analytics and other ML solutions. .

Home Services App

Cyrstals App is a platform connecting customers with skilled professionals for various services. From beauty treatments like haircuts and massages to home services like plumbing and cleaning, the app offers a wide range. Users can easily book services online, choose preferred times, and track service providers in real-time. The platform emphasizes verified professionals, transparent pricing, and customer satisfaction, aiming to simplify everyday life with convenient and reliable on-demand services.
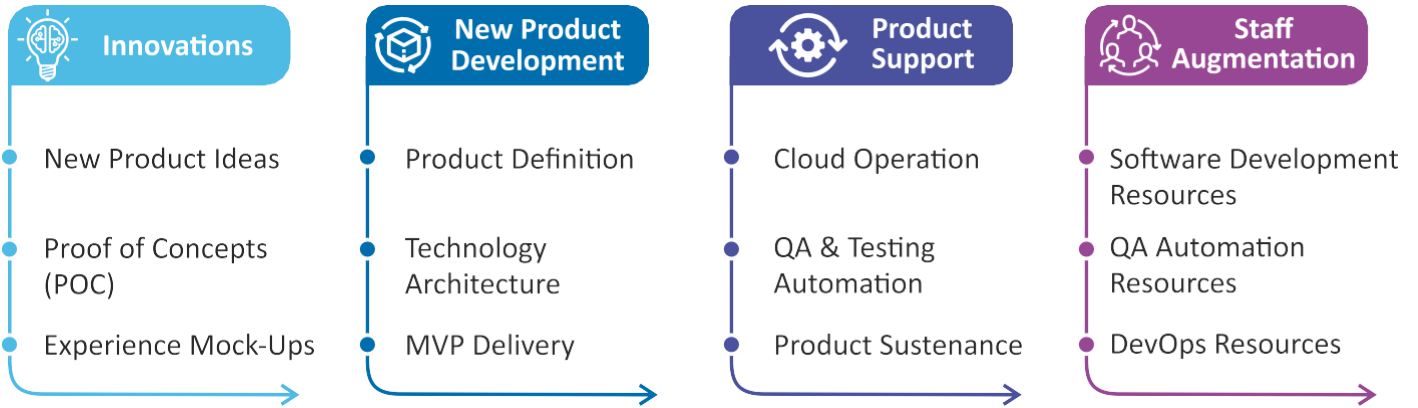

Analytical App

Neuquip is the one-stop shop for data analysis, empowering users from all walks of life to unlock insights and make data-driven decisions through the amalgamation of powerful AI and our unique sketchbook reporting concept.

Service Offering

Innovations
- New Product Ideas
- Proof of Concepts (POC)
- Experience Mock-Ups

New Product Development
- Product Definition
- Technology Architecture
- MVP Delivery

Product Support
- Cloud Operation
- QA & Testing Automation
- Product Sustenance

Staff Augmentation
- Software Development Resources
- QA Automation Resources
- DevOps Resources

Value Proposition

Multiple domain, and business use cases understanding

Expertise in hardware and software (immersive technologies & application development)

Expertise in IoT, data science, digital twin (AI & ML)

IoT Experience enablement through Mobile Apps and AR/VR

Tech Stack

.NET Core | Java | node JS | NEXT.JS | Laravel

SQL | A (Angular) | MySQL | React | mongoDB
